Muhammad Ameer Hamza

Flutter Developer | Cross-Platform Mobile Apps (iOS & Android)
+923081736926 • Gmail • Portfolio • Github • Alipur, Pakistan

PROFESSIONAL SUMMARY

Results-driven Flutter Developer with 3+ years of hands-on experience building scalable, high-performance cross-platform mobile applications for iOS and Android. Proficient in Dart, Flutter, Firebase, Supabase, and RESTful API integration. Passionate about clean architecture (MVVM), pixel-perfect UI, and delivering seamless user experiences. Currently active on Fiverr with consistent 5-star client feedback.

WORK EXPERIENCE

Flutter Developer (Freelance) | Fiverr — Remote *Aug 2024 – Present*

- Designed and delivered cross-platform mobile applications for clients targeting iOS and Android.
- Integrated RESTful APIs, Firebase (Auth, Firestore, FCM) and Supabase backends for full-featured apps.
- Implemented pixel-perfect UI designs translated from Figma mockups into Flutter widgets.
- Managed app state using Provider and GetX; maintained clean, well-documented codebases via Git/GitHub.
- Earned consistent 5-star reviews through timely delivery and strong client communication.

KEY PROJECTS

Flutter TV Streaming App & Admin Panel | *Flutter, Firebase, FCM, GetX*

- Built a feature-rich TV streaming app with intuitive UI, responsive design, and smooth performance across devices.
- Integrated Firebase Cloud Messaging (FCM) for push notifications.
- Developed a complete Flutter admin panel to manage content, categories, and user engagement.

Flutter Movie Application | *Flutter, GetX, MVVM, REST API*

- Developed a full-cycle movie app using GetX state management and MVVM architecture with both frontend and backend utilities.

Fitness Application | *Flutter, SQLite, Custom Widgets*

- Integrated SQLite for offline data persistence of user progress and activity records.
- Built a goal-based tracking system with reusable custom widgets for scalable UI architecture.

TECHNICAL SKILLS

Mobile: Flutter, Dart (iOS & Android, Google Play & App Store deployment)
State Management: Provider, GetX, Bloc / Cubit
Backend / Database: Firebase (Auth, Firestore, FCM, Analytics), Supabase (PostgreSQL), SQLite, Hive
APIs & Tools: RESTful APIs (Dio / HTTP), JSON, Postman, Figma, Android Studio, VS Code
Version Control & Languages: Git, GitHub, Dart, Java, C++, SQL

EDUCATION

BS Computer Science — University of Engineering & Technology (UET), Taxila *2022 – 2026*
Relevant coursework: Mobile App Development, Data Structures, Algorithms, Software Engineering, Database Systems.

ICS (Intermediate in Computer Science) — Pakistan *2020 – 2022*
